

## EB-CON / Connector for base base profile

**Application:** PVC base profile connector for joining base profiles in the contact insulation system – ETICS. Connector keeps base profiles in a leveled position, against each other to ensure stable base profile connection.

### Advantages:

- Assembling and fixing tool for connecting the jointing closing and base profiles;
- Dimensionally correspond to thickness of materials to be joined;
- Quick and firm jointing of profiles;
- Keeps profiles in a levelled position against each other.

### Technical data:

SKU	EAN	Material	Size (mm)	Length (m)	Packing
ALB-EB-CON-030	4751023401324	PVH	0.6 - 1	0.03	100 pcs.
ALB-EB-CON-10	4751023401331	PVH	0.6 - 1	1	10 pcs.

### Storage:

- The horizontal storage position;
- At 1 m length storage areas must be dry;
- Storage time is 24 months.
